CABINET & DRAWER PULLS

REFRESH YOUR SPACE

Cup (Bin) Pulls - Half-moon shape, often used in farmhouse and vintage kitchens.

Ring Pulls - Circular ring attached to a base, commonly seen in antique and classic cabinetry.

Drop Pulls - Hanging pull with an elegant, ornate look, great for traditional furniture-style cabinets.

Arch Pulls - Slightly curved handles with soft detailing, often used in classic designs..

Ornate or Decorative Pulls - Intricately designed with scrolls or patterns, found in Victorian or French country styles.

Bar Pulls - Straight, long handles, perfect for modern kitchens and bathrooms.

T-Bar Pulls - Smaller than bar pulls but equally sleek and minimalist.

Edge (Finger) Pulls - Installed on the edge of drawers for a clean, handle-free look.

Recessed Pulls - Built into the drawer/door for a flush, streamlined aesthetic.

Wire Pulls - Simple, curved metal wire handles, often used in modern industrial designs.

Slimline Bar Pulls - A thinner version of bar pulls, blending modern and transitional styles

Flat Front Pulls - Wide, flat handles that are bold but clean-looking.

Curved or Wave Pulls - Gently curved handles that add a soft, flowing design.

Glass or Acrylic Pulls - Transparent or frosted finishes that feel light and contemporary.

Novelty & Custom Pulls - Unique shapes like geometric, leather-wrapped, or mixed-material pulls.
