

Window Options

Choosing the right windows improves energy efficiency, comfort, and the overall appearance of your home. This guide outlines common window styles, materials, and features to help you select the best option for your space and budget.

Window Styles

Single-Hung Window

Classic design with a fixed upper sash and operable lower sash. Affordable and easy to maintain.

Double Hung Window

Both sashes open for improved ventilation and easy cleaning. A popular choice for many homes.

Sliding Window

Operate horizontally and provide wide views. Ideal for modern designs and tight spaces.

Casement Window

Hinged at the side and open outward for maximum airflow and a tight seal.

Picture Window

Fixed windows designed to showcase views and natural light. Often paired with operable windows.

Window Frame Materials

Vinyl Windows

Low-maintenance, energy-efficient, and cost-effective.

Aluminum Windows

Strong and lightweight with a modern appearance. Best suited for certain architectural styles.

Composite Windows

Durable and energy-efficient, combining multiple materials for long-term performance.

Wood Windows

Natural beauty with excellent insulation and a classic architectural look

Performance & Features

- Energy-efficient glass options
